

CARILLON POINT 2010 SCULPTURE EXHIBIT

Carillon Properties has been presenting an annual Waterfront Exhibit showing of quality and unique sculpture throughout Carillon Point for more than ten years. With the help of Gormally Art Services, we have attempted to showcase sculpture in relationship to architecture, landscape and the waterfront environment.

The artist's chosen to display their work have both national and international reputations, as well as accomplished public art projects. The Waterfront Exhibit provides a beautiful backdrop for the sculptures to be fully experienced and appreciated in a public setting.

All exhibited works of art are available for sale, and site specific commissions are welcome.

For further information on any of the featured works, please contact Gormally Art Services at (206) 356-7106 or Carillon Properties at (425) 822-1700.
